K-ZWALLY

NeoLink wall control panel
for NeoLink/ZigBee luminaires

— Luminaires can be switched on and off (power switch is recommended)
— Brightness can be adjusted steplessly (5–100 % for colour temperatures and CIE-xy colours)
— Colour temperature can be adjusted steplessly, from 1,800 K up to 16,000 K with transition to red range
— Stepless RGB sequence
— For luminaires with direct and indirect light portion, each light portion can be controlled separately from the other – both in brightness mode and colour mode.
— Automatic daytime sequence (standard sequence or seasonal sequence)
— Installing a NeoLink network (automatic registration of NeoLink luminaires in the network)
— Resetting an installed NeoLink network (automatic deregistration of NeoLink luminaires from the network)
— Integration in a higher-ranking NeoLink network (starting from a NeoLink Box or a NeoLink USB Stick) is possible
— Flush mounted in conventional wall sockets with a minimum depth of 61 mm
